### Volume XLIII

April 1979-March 1980

## Index by Authors

Bailey, W. W., *Polyalphaolefins In Greases And Gear Oils*, 4, XLIII, July 1979

Co-author, M. Campen

Bellanti, J. A., *A New Marketing Approach "Lidolube"*, 8, XLIII, November 1979

Co-author, T. G. Musilli

Bolander, E. H., *Greases For Naval Shipboard Applications*, 2, XLIII, May 1979

Co-author, L. G. Schneider

Bowen, E. R., *Applications Of Ferrography To Grease Lubricated Systems*, 10, XLIII, January 1980

Co-authors, J. P. Bowen and D. P. Anderson

Christian, J. B., *Torque Characteristics Of Lubricating Greases In Miniature Bearings*, 5, XLIII, August 1979

Clark, G. J., *Friction Oxidation Testing—A New Look At An Old Machine*, 1, XLIII, April 1979

Co-author, F. Arezzo

Doner, J. P., *Low Temperature Military Ground Equipment Grease Considerations*, 5, XLIII, August 1979

Focke, R. H., *Imaginative Grease Marketing—Multipurpose Versus Special Purpose Products*, 4, XLIII, July 1979

Hanley, W. J., *Automotive Engineering And Lubrication Trends For The 1980's*, 9, XLIII, December 1979

Hendricks, S. E., *A Developed Bulk Grease Truck*, 11, XLIII, February 1980

Kent, G. S., *President's Address—1979*, 9, XLIII, December 1979

Kingsford, H. A., *New Developments In Coupling Greases*, 3, XLIII, June 1979

McClintock, R., *A Laboratory Study Of Wheel Bearing Grease High-Temperature Life*, 12, XLIII, March 1980

Polishuk, A. T., *Dithiocarbamate Additives In Lubricating Greases*, 6, XLIII, September 1979

Co-author, H. H. Farmer

Rincon, A., *The Action Mechanism Of The Mineral Lubricating Greases*, 11, XLIII, February 1980

Co-author's, J. M. Palacios and L. Arizmendi

Scott, W. P., *Flexible Coupling Lubricants Basis For ASTM/AGMA Specification Development*, 3, XLIII, June 1979

Co-author, C. J. Swartz

Sindall, J. W., *Improving Organization Effectiveness*, 3, XLIII, June 1979

Smith, E. L., *Lubricating The Utility Industry*, 1, XLIII, April 1979

Stallings, L., *Lubricating Greases For Military Aircraft*, 2, XLIII, May 1979

Co-author, N. Rebusk

Winer, W. O., *Introduction To Elastohydrodynamic Lubrication*, 8, XLIII, November 1979

## Index by Titles

*The Action Mechanism Of The Mineral Lubricating Greases*, A. Rincon, J. M. Palacios and L. Arizmendi, 11, XLIII, February 1980

*Applications Of Ferrography To Grease Lubricated Systems*, E. R. Bowen, J. P. Bowen and D. P. Anderson, 10, XLIII, January 1980

*Automotive Engineering And Lubrication Trends For The 1980's*, W. J. Hanley, 9, XLIII, December 1979

*Dithiocarbamate Additives In Lubricating Greases*, A. T. Polishuk and H. H. Farmer, 6, XLIII, September 1979

*Flexible Coupling Lubricants Basis For ASTM/AGMA Specification Development*, W. P. Scott and C. J. Swartz, 3, XLIII, June 1979

*Friction Oxidation Testing—A New Look At An Old Machine*, G. J. Clark and F. Arezzo, 1, XLIII, April 1979

*Greases For Naval Shipboard Applications*, E. H. Bolander and L. G. Schneider, 2, XLIII, May 1979

*Imaginative Grease Marketing—Multipurpose Versus Special Purpose Products*, R. H. Focke, 4, XLIII, July 1979

*Improving Organization Effectiveness*, J. W. Sindall, 3, XLIII, June 1979

*Introduction To Elastohydrodynamic Lubrication*, W. O. Winer, 8, XLIII, November 1979

*A Laboratory Study Of Wheel Bearing Grease High-Temperature Life*, R. McClintock, 12, XLIII, March 1980

*Low Temperature Military Ground Equipment Grease Considerations*, J. P. Doner, 5, XLIII, August 1979

*Lubricating Greases For Military Aircraft*, L. Stallings and N. Rebuck, 2, XLIII, May 1979

*Lubricating The Utility Industry*, E. L. Smith, 1, XLIII, April 1979

*New Developments In Coupling Greases*, H. A. Kingsford, 3, XLIII, June 1979

*A New Marketing Approach "Lidolube"*, J. A. Bellanti and T. G. Musilli, 8, XLIII, November 1979

*Polyalphaolefins In Greases And Gear Oils*, W. W. Bailey and M. Campen, 4, XLIII, July 1979

*President's Address—1979*, G. S. Kent, 9, XLIII, December 1979

*Torque Characteristics Of Lubricating Greases In Miniature Bearings*, J. B. Christian, 5, XLIII, August 1979

## **Index by Category**

### **GEAR LUBRICANTS**

*Polyalphaolefins In Greases And Gear Oils*, W. W. Bailey and M. Campen, 4, XLIII, July 1979

### **GENERAL**

*Improving Organization Effectiveness*, J. W. Sindall, 3, XLIII, June 1979

### **TRANSPORTATION**

*Automotive Engineering And Lubrication Trends For The 1980's*, W. J. Hanley, 9, XLIII, December 1979

*A Developed Bulk Grease Truck*, S. E. Hendricks, 11, XLIII, February 1980

### **MARKETING**

*Imaginative Grease Marketing—Multipurpose Versus Special Purpose Products*, R. H. Focke, 4, XLIII, July 1979

*A New Marketing Approach "Lidolube"*, J. A. Bellanti and T. G. Musilli, 8, XLIII, November 1979

## **NLGI**

*President's Address*, G. S. Kent, 9, XLIII, December 1979

## **LUBRICATING GREASE**

### **Additives**

*Dithiocarbamate Additives In Lubricating Greases*, A. T. Polishuk and H. H. Farmer, 6, XLIII, September 1979

### **Application**

*Greases For Naval Shipboard Applications*, E. H. Bolander and L. G. Schneider, 2, XLIII, May 1979

*Lubricating Greases For Military Aircraft*, L. Stallings and N. Rebuck, 2, XLIII, May 1979

*Lubricating The Utility Industry*, E. L. Smith, 1, XLIII, April 1979

*The Action Mechanism Of The Mineral Lubricating Greases*, A. Rincon, J. M. Palacios and L. Arizmendi, 11, XLIII, February 1980

*Applications Of Ferrography To Grease Lubricated Systems*, E. R. Bowen, J. P. Bowen and D. P. Anderson, 10, XLIII, January 1980

### **Characteristics**

*Introduction To Elastohydrodynamic Lubrication*, W. O. Winer, 8, XLIII, November 1979

*Low Temperature Military Ground Equipment Grease Considerations*, J. P. Doner, 5, XLIII, August 1979

*Torque Characteristics Of Lubricating Greases In Miniature Bearings*, J. B. Christian, 5, XLIII, August 1979

### **Structure**

*New Developments In Coupling Greases*, H. A. Kingsford, 3, XLIII, June 1979

### **Testing**

*A Laboratory Study Of Wheel Bearing Grease High-Temperature Life*, R. McClintock, 12, XLIII, March 1980

*Flexible Coupling Lubricants Basis For ASTM/AGMA Specification Development*, W. P. Scott and C. J. Swartz, June 1979

*Friction Oxidation Testing—A New Look At An Old Machine*, G. J. Clark and F. Arezzo, 1, XLIII, April 1979
